

Press Release

SMT awarded “Best Practice Awards 2006” for Enterprise Governance

Surface Mount Technology (Holdings) Limited has been awarded the Best Practice Awards 2006 for Enterprise Governance. This award fully recognizes the management performance of SMT. It was a special honor to the company during the year of 2006, its 20th anniversary. The Chairman and Managing Director, Professor Kei Biu Chan, will continue to uphold his management philosophy and corporate social responsibility to enhance sustainable development.

“Green Manufacturing” is a worldwide trend. SMT has consistently sought to contribute to the environmental protection. In order to raise the “Green” awareness among local manufacturers, Prof. Chan established the Hong Kong Green Manufacturing Alliance in early 2005.

SMT also strives to enhance local industrial development and create business opportunities for local enterprise. In view of the increasing demand in China’s automotive industry, Prof. Chan initiated and was appointed as the chairman of Group 27 (automobile components) under the Federation of Hong Kong Industries. For the past two years, the group has successfully brought attention to the industry in Hong Kong. Hong Kong Productivity Council has opened its Automotive Parts and Accessory Systems R&D Center through the Government support. Besides, the Hong Kong Trade Development Council has started to organize Hong Kong International Auto Parts Fair since this year, the first one of such kind.

“Giving back to society” is one of SMT’s core values. We believe education is the key to the development of the young generation. Therefore, we substantially support both local and mainland schooling such as funding for school constructions in China, scholarships and internship trainings.

We will always learn from the past and seek improvements. We will exert our maximum efforts to maintain strong corporate governance which is vital to the future growth of the corporation.

About SMT

SMT is one of the largest EMS providers in Asia. The Group is principally engaged in providing EMS to original equipment manufacturers of computer peripherals, industrial controls, automotive electronics, office appliances and consumer electronics. 新進科技（集團）榮獲「2006年最佳業務實踐獎」- 企業管治

新進科技(集團)有限公司榮獲「2006年最佳業務實踐獎」頒發的「企業管治獎」，是次獎項無疑對集團的管治模式，給予充分的肯定；集團主席兼董事總經理陳其鏞教授欣見獎項的頒贈，適逢集團成立 20 周年，表示將繼續推行其管理哲學，並繼續履行企業公民的社會責任，同時為業界的持續發展，積極尋找商機。

“綠色製造”是世界的一大趨勢，新進科技亦不斷致力於環境保護，為提高本地工業界綠色製造的意識，陳其鏞教授於 2005 年初倡議並創立「香港綠色製造聯盟」。

與業界並進，攜手共拓商機，乃成功企業不可或缺的一環，有鑒於國內汽車市場的強烈需求，陳其鏞教授倡導成立汽車零部件的相關組織，並於 2004 年獲香港工業總會推舉為第二十七工業分組（汽車零部件）的主席。過去兩年，第二十七組成功地將本地汽車零部件業的發展推進一大步，香港生產力促進局於 2006 年成立汽車零部件研發中心，開發部件，拓展市場。此外，今年 4 月更與香港貿易發展局攜手創辦「香港國際汽車零部件展」，為本港首個汽車零部件展覽會。

回饋社會是集團的核心價值之一，而教育是新一代成長和發展的重要一環，所以我們捐獻及支持本港及國內的教育項目栽培棟樑，例如資助學校興建、獎學金計劃及在學培訓等等。

有云「承先啓後，繼往開來」，新進科技定必繼續推行優秀的管治哲學，為集團長遠的發展奠定穩健的基礎。
